Internodes

Let us hear about your favorite exotic websites! E-mail the locations of cool sites (preferably sites that focus on exotic plants) to amy.ferriter@sfwmd.gov. Include a brief description of the site in your message.

XenoNET

United States Department of Agriculture Plants National Database
<http://plants.usda.gov/plants/plntmenu.html>

A single source of standardized information about plants. Provides standardized plant names, symbols and other attribute information. Also allows you to search state plant distributions. Links to other sites.

Federal Interagency Committee for the Management of Noxious and Exotic Weeds

<http://bluegoose.arw.r9.fws.gov/ficmnewtiles/NatlWeedStrategyTOC.html>

This committee is coordinating a federal government approach for the management of weeds. On this site, you can review the federal "Strategy for the Containment and Control of Harmful Non-Indigenous Plant Species." Site also allows you to offer support and/or comments on the strategy.

University of Florida Center for Aquatic and Invasive Plants

<http://aquat1.ifas.ufl.edu>
 View the "Photo Gallery" that covers subjects related to freshwater ecosystems, test your botanical skills with the "Can You ID This?" quiz, search the "Aquatic and Wetland Plant Database," view goofy file shots of University researchers (and you thought your driver's license picture was bad...), and LOTS more! Links to other sites.
