

Cogongrass Workshop

May 7, 2015 1000am-230pm

Sewee Visitor and Environmental Education Center
5821 N Highway 17
Awendaw, South Carolina 29429

Free, lunch provided by SC Exotic Pest Plant Council

Please register by April 30th by contacting
southcarolinaeppc@gmail.com

You're invited to attend a cogongrass workshop to learn more about the status of this invasive plant in South Carolina. Cogongrass is the worst invasive plant in the Southeast with the potential to devastate our natural forests. Cogongrass is listed as a federal noxious weed and has spread throughout the Southeastern United States. Luckily it hasn't spread widely in SC yet. Let's keep it that way!

Workshop Agenda

- 945-1000** Refreshments and Networking
- 1000-Noon** Cogongrass status, identification, survey techniques, and resources.
- Noon-1pm** Lunch provided by the SC Exotic Pest Plant Council
- 100-230** Optional field trip to visit Francis Marion National Forest cogongrass locations

*Continuing Forestry Education and SC Pesticide License Recertification credits offered. Visit SCEPPC website for details.
