

# Index to Wildland Weeds Summer 2002 – Fall 2004

Note: See the Summer 2002 issue for an index to Winter 1997 (Charter Issue) through Spring 2002. Both indexes also are available on the FLEPPC website at [www.fleppc.org](http://www.fleppc.org)

## TABLES OF CONTENTS

### SUMMER 2002

Wildland Weeds Index: Winter 1997 Spring 2002 by *Karen Brown*  
What role do birds play in dispersal of invasive plants? by *Michael J. Meisenburg, Alison M. Fox*  
Proper uses of FLEPPC's List of Invasive Species by *Ken Langeland*  
*Agave sisalana* Perrine by *Karen Brown*  
Notes from the Disturbed Edge - Ch. 5

### FALL 2002

Evaluation of Three Glyphosate Products for Controlling Adventitious Sprouting of Melaleuca and Brazilian Pepper Tree Stumps by *Ken Langeland*  
New Florida Legislation by *Matthew King*  
The 3rd Annual Great Air Potato Roundup by *Ellen Stern and Anna DiMarco*  
Creative Project Combination Extends Grant Value  
Bones Wrapped in *Lygodium microphyllum* Rachis Suggest a Potential Problem for Wildlife by *Camille Darby and Liz R. McKercher*  
Best Wishes Nancy Coile by *Andrea Van Loan*  
Southeast EPPC Update by *Brian Bowen*  
North Carolina EPPC Really Exists by *Dick Bir*

### WINTER 2002

Linking Ecology and Horticulture to Prevent Plant Invasions: An Introduction to the St. Louis Declaration and the Codes of Conduct by *Peter White*  
Letter from the President of the Southeast Exotic Pest Plant Council by *Brian Bowen*  
Japanese stiltgrass (*Microstegium vimineum*) Identification and Management by *Joseph C. Neal and Caren A. Judge*  
Meeting Notes FLEPPC's 17th Annual Symposium by *Karen Brown*  
Getting Private Landowners Involved in Invasive Species Management: A Nature Conservancy Pilot Project by *Roberto Torres*  
Brazilian Peppertree Seed Chalcid: Wasp Wages War on Widespread Weed by *J.P. Cuda, G.S. Wheeler and D.H. Habeck*  
Southeast EPPC Update by *Brian Bowen*  
Notes From the Disturbed Edge - Ch. 6

### SPRING 2003

Welcome Mark Garland! by *Andrea Van Loan*  
Resolution of the Southern Association of State Departments of Agriculture (SASDA) 2002 Privet Pull & Microstegium Massacre by *Jim Allison*  
Control Invasives, Improve the Neighborhood and Reclaim the Park by *Roy Alexander*  
Monitoring Ground Treatments of Old World Climbing Fern on the A.R.M. Loxahatchee NWR by *Bill Thomas, Jr. and Laura A. Brandt*  
Invasive Plants: Global Issues, Local Challenges by *Lisa Smith*  
EPPC Forum, NAEPPC MOU, and Annual Meeting by *Brian Bowen*  
FLEPPC Education Grant Enables Nature Coast Envirothon by *Jeanne Brown*  
SE-EPPC Organizational Summary; A Special Recognition by *Brian Bowen*  
Notes from the Disturbed Edge - Ch. 7

### SUMMER 2003

Ranking System Aids Land Managers in Control of Invasive Species by *Sara J. Drake*  
Exotic Plant Management through the Seasons at Great Smoky Mountains National Park by *Kristine Johnson*  
Detecting Invasive Exotic Plants by *Bob Doren*  
The Asheville Bittersweet Sweep by *Dick Bir*  
National Invasive Weeds Awareness Week IV by *Nelroy Jackson*  
Control of Regrowth from Air Potato (*Dioscorea bulbifera* L.) Bulbils by *Craig Duxbury, Scott Glasscock and Iwona Staniszevska*  
FLEPPC Springs up at the TBWG's Spring Expo Trade Show by *Andrea Van Loan*  
MS-EPPC Cogongrass Symposium by *Lisa Yager*  
In Memory of Randel F. Poppel  
Notes from the Disturbed Edge - Ch. 8

### FALL 2003

18th Annual FLEPPC Symposium a Success!  
*Lonicera maackii* Tackled by Nashville's Metro Parks and Recreation Department and Vanderbilt University by *Jill Smith and Steve Baskauf*

Nonnative Invasive Plants of Southern Forests: A Field Guide for Identification and Control

A Complete Listing of All Invasive Plants of Concern in the Southern Region  
Recent Activities in the Southeast EPPC by *Brian Bowen*

Fifth Annual SE-EPPC Symposium by *Joyce Bender*

First Regional Workshop held on Managing Terrestrial Plant Invasions in the Temperate South

Florida Exotic Pest Plant Council's 2003 List of Invasive Species

Explore your AlterNatives: A Plant Substitution Guide for South Florida  
by *Amy Ferriter*

Herbicide Advice for Homeowners by *Ken Langeland*

Notes from the Disturbed Edge - Ch. 9

### WINTER 2003

Air Potato Eradication Project by *Joshua Platt*

Pest Plant Packets for Lake People by *Fritzi S. Olson*

Origin of Air Potato Identified by *Bill Overholt, Colin Hughes, Caronia Wallace & Eric Morgan*

Merry Christmas Senna by *Ken Langeland*  
Evaluation of Foliar Application Herbicides for Control of Christmas Senna by *Ken Langeland, D. W. Clark, R. K. Stocker & G. E. MacDonald*

FLEPPC Board Gets Down and Dirty

Q&A With Great Results

Weeds are Still "Weeds" in Paradise by "Weedman" *Dan Clark*

One Man's Weed is Another Man's Treasure!

Notes from the Disturbed Edge - Ch. 10

### SPRING 2004

TAME Melaleuca by *Amy Ferriter*

Status and Impacts of the Melaleuca Biological Control Program by *C. S. Silvers*

Cost Comparison of Melaleuca Treatment Methods by *Francois B. Laroche and Jennifer McKim*

Melaleuca as an Allergen: Setting the Record Straight by *Michael Meisenburg*

Invasive Plant Education at Archbold Biological Station by *Jeffrey T. Hutchinson*

IPINAMS and EMAPI 7 Conference: A Report by *Thaddeus Hunt*

Below Ground Competitive Strategies: The Root of the Melaleuca Problem in a South Florida Flatwoods by *Isabel Lopez-Zamora, Nicholas B. Comerford and Randall Stocker*

Notes from the Disturbed Edge - Ch. 11

### SUMMER 2004

*Lygodium* Infestations in the Lake Wales Ridge by *Tabitha Biehl*

Important Progress on the *Lygodium microphyllum* Biological Control Program  
by *Robert W. Pemberton*

Japanese Climbing Fern Control Trials In Planted Pine by *Mark Zeller and Drew Leslie*

Something wicked this way comes – A Shakespearean perspective on exotic pest plants by *Don H. Les*

Exotic Species Threaten Rare Ferns in Miami-Dade County by *Jennifer Possley*

Invasive Exotics Affect Park Utilization by *Karen Brown*

Hawaiian Plant Threatens South Carolina Dunes by *Robin Roecker and Tommy Socha*

Legislative Update by *Matthew King*

FLEPPC & SE-EPPC in 2004 by *Thaddeus Hunt*

Notes from the Disturbed Edge - Ch. 12

### FALL 2004

Air Potatoes Run Rampant by *Karen Brown*

Notes from the *Lygodium* Research Review Meeting by *Jeff Hutchinson, Ken Langeland, and Amy Ferriter*

Bureau of Invasive Plant Management *Lygodium* Strike Team by *Drew Leslie*

TN-EPPC Board of Directors

TN-EPPC Turns 10!

Tennessee Exotic Pest Plant Council's Invasive Exotic Pest Plants List for 2004

National Park Service Exotic Plant Management Teams Invade the Southeast

by *Nancy Fraley*

Exotic Plants Pose Serious Threat to City's Parks and Greenways by *Morgan Simmons*

Notes from the Disturbed Edge - Ch. 13

**QUALITY PRODUCTS FOR WATER QUALITY**

**Algae and Aquatic Weed Control and Maintenance Products**

**AQUASHADE**  
A patented, concentrated liquid formulation for use in contained lakes and ponds. EPA registered for aquatic plant growth control. Contains a blend of blue and yellow dyes to block out specific light rays critical to photosynthesis. No restrictions on swimming, fishing, irrigation or stock watering. Leaves water a pleasing blue color.

**CUTRINE-PLUS LIQUID**  
A patented, concentrated liquid algacide with a wide range of labeled use sites. Contains chelated copper which stays in solution to continue controlling a broad range of algae well after application. No water use restrictions following treatment.

**CUTRINE-PLUS GRANULAR**  
A patented, concentrated liquid algacide with a wide range of labeled use sites. Contains chelated copper which stays in solution to continue controlling a broad range of algae well after application. No water use restrictions following treatment.

**WEEDTRON**  
A liquid chelated copper algacide formula in a concentration suitable for treating stock water tanks, troughs and small ponds. Treated water can be used immediately for stock watering.

**Navigato**  
Inertive aquatic plants such as water hyacinth, chironia, and sparrowdock. Gradual release and systemic action ensures complete kill of the entire plant.

**AQUATRINE**  
The exact formulation of Cutrine-Plus Liquid, but labeled specifically for use in fish and shrimp aquaculture facilities. Provides use instructions for ponds, tanks and recirculatory systems.

**AQUASHADE**  
A dilute Aquashade formulation in 2 oz. and 8 oz. packaging for ornamental applications in garden ponds, fountains and aquariums. Provides algae control at a drop per gallon or one ounce per 1,000 gal.

**AQUASHADOW**  
A blended formulation of water soluble dyes in convenient water soluble packets. Beautifies murky, cloudy or off-colored water with a pleasing, natural aqua-blue tint.

**Florida Exotic Pest Plant Council  
 20th Annual Symposium**

**“Weed Be Jammin’”  
 Back to our Tropical Roots**

**May 9-11, 2005**

**Wyndham Casa Marina Resort\*  
 Key West, Florida**

including a special session  
 in celebration of FLEPPC's 20th year:

**“Then and Now –  
 The Exotic Pest Plant Council”  
 by FLEPPC founding members**

Annual business meeting, general  
 sessions, vendor displays, field trips,  
 training and CEUs

Banquet and performance by **The Weeds**

Program Chair: Dan Clark  
 Daniel\_clark@nps.gov

Visit the FLEPPC web site for details:

**Be Jammin’! Be There!**

## epilogue

Dear Fellow FLEPPC Members:

This has been quite a ride - I hope that you've enjoyed it as much as I have. In the summer of 2001, I left my office at lunchtime and drove my minivan to a shopping strip mall to pick up my shoes from a repair shop.

Somewhere along the way I was inspired to write what became the first chapter of this Wizard of Oz odyssey that has continued quarterly since then. Now I awaken dazed from the dream, and see you looking down at me, asking where have I been. The answer of course is that I have been on a journey with you. You are the strong, sensitive, intelligent, outspoken, and crazy heroes of this story. You embody the knowledge, foresight, initiative and humanity that he and she possess, and together you are an unbeatable team.

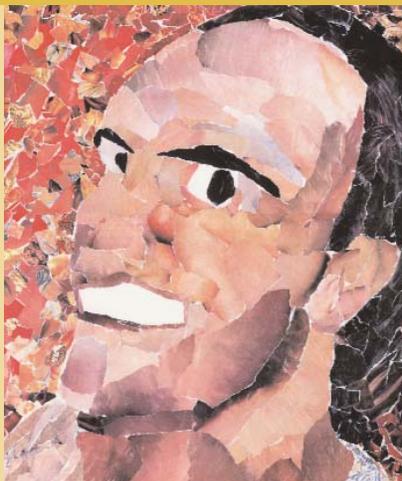

Thank you for granting me supposed anonymity for the past few years. Your consideration has allowed me to let this story self-evolve in a vacuum relatively devoid of prompting. I hope that angle didn't seem too weird, but it just worked best that way.

Thank you to my muse, the Goddess of the Moon, for your constant encouragement, and many thanks to The Fern Queen, who read Chapter 1 and expressed her support by publishing it. Look what can happen with just one spark of positive energy.

And so this story ends, but continues. Live it, and love it. There is work to be done.

Thank you,

J.A. (a/k/a Tom Fucigna)

PRESENTS

**A series of seminars and field tours held throughout south Florida to demonstrate biologically based melaleuca management strategies.**

### What will be featured?

- Mechanical and chemical control techniques
- Biological control
- Integrated management

### Who should attend?

- Public and private land managers
- Land owners and homeowners
- Vegetation management professionals
- Tree trimmers
- Anyone interested in melaleuca management

### Where and when?

- Lee County – **February 15 & 16, 2005**
- Broward County – **March 10-12, 2005**
- Collier, Hendry and Palm Beach Counties – To be announced

Details on demonstration dates, locations, and registration will be posted on the TAME Melaleuca website

**<http://tame.ifas.ufl.edu>**

CEUs available.
