WHERE DO YOU WANT TO CONTROL THIS PEST

Commercial vs Private

Commercial Applicator

means a permitted applicator who uses or supervises the use of restricted use pesticides and other pesticides for any purpose or on any property and if applied ***with compensation*** other than trading of personal services between producers of agricultural commodities. Commercial applicators shall be further identified according to the type of pesticide application they are engaged in.

Private Applicator means a permitted applicator who uses or supervises the use of any pesticide which is classified for restricted use for purpose of producing any ***agricultural commodity on property owned or rented by him or his employer*** or (if applied without compensation other than trading of personal services between producers of agricultural commodities) on the property of another person.

I ALREADY HAVE A PERMIT IN ANOTHER STATE...

Alabama has developed reciprocal agreements with eight (8) other states to allow applicators certified in those states to obtain an Alabama permit without being tested .

Those states are Georgia, Florida, Indiana, Louisiana, Mississippi, Ohio, South Carolina and Tennessee.

All other states must contact the Department of Ag for further information.

TESTING AND OTHER IMPORTANT INFORMATION
